THE CITIZEN.
SATURDAY, MAY 26, 1877.

LOCAL MATTERS.

MR. JOSEPH MOSHEIMER, a well known miner and mill man, passed through here this week for San Francisco, from a visit to Lower California and some parts of Sonora. He was, if we remember aright, the builder of the first quartz-mill on Carson river and crushed the first ore from the Comstock. He is President of a company of San Francisco men engaged in Mining and land operations, the company's name being "Anglo-Mexican Land and Mining Bureau Association." Among the mining companies have are some near Altar, and on which work has been started by Mr. M. He visited the Madelena Mission in Lower California, just opposite Guaymas, where the company owns some rich lands on which he says \$1000 per acre can be annually made in raising sugar cane, and he also says that he has no doubt but there is land on the Gila and Colorado on which like results can be realized. He left some notes on this subject which we will work up by next week. He is one of a company who edit and publish the "Pacific Exchange," a periodical devoted to science as applied to mines and mining and other subjects of special interest to the Pacific coast.

MAXOR ALLEN returned from San Francisco by Wednesday's stage, whither he had been on, we are glad to say, a successful business trip. Among other good news he brings, is that he saw the machinery on the cars of a 20-stamp quartz mill for mines at the Cerro Colorado, and it must be at Yuma by this time. Mr. A. McKee, who is interested in this new mill, says that as long ago as last September a company was formed by Prof. Arrey, with a capital of ten millions of dollars, and that this mill is a part of the company's operations. It will be erected at the site of the old Cerro Colorado, where the company have a number of mines and, as we are informed, plenty of ore. The mill will be very convenient for the miners of Arivaipa district, and they have thousands of tons ready and are daily getting out more, and their veins are showing very well indeed. The machinery of the new mill weighs 80,000 pounds.

LEUT. ROBERT HANNA, Sixth Cavalry, arrived here Monday with a company of Wallapai Indian scouts, numbering thirty-five. He has secured the services of the well known guide Dan O'Leary and will scout in the southeastern part of the Territory. Lieut. H. is an active and faithful officer, and we surely hope for his own as well as the public good, he will have great success. From the well known reputation of Mr. O'Leary as a brave man and successful scout and Indian fighter, dating from the time he started with Gen. Crook on his first campaign as the captain of a band of Piate and Wallapai scouts. We are satisfied that if not hampered too much with red tape "and such," he will give a good account of himself and scouts. The command we understand, will start from Camp Huachuca as a basis of supplies. May success attend the scouts and their commanders.

MR. H. B. SMITH returned this week from a trip to Pueblo Viejo and San Carlos. He says that in talks with many settlers, not one had a word to say against the conduct or management of the San Carlos Indians; that some eighteen months ago, there was some complaint, but none whatever now. He reports that the population has rapidly increased in the valley, and that there is but little unclaimed and unoccupied land south of the river. He also reports that the mining camp of Arivaipa is increasing, and that thirty men are at work with what they regard as good prospects. The whole section of the country out that way is quite prosperous.

COL. ROCHE, paymaster, returned from his pay trip on Wednesday. He had a pleasant trip but was detained a whole month at Apache—having arrived there April 18, and had to remain until May 18. He tells of a lively horseback ride he didn't enjoy very much near Apache in a terrible hail-storm—the force of which was almost enough of anything he ever experienced. Maj. J. H. Lord returned to town the same day, but he did not quite reach Apache. Both had pleasant and safe trips, and are always welcomed back.

MR. JOSEPH COLLINGWOOD of Florence, lately spent several days in Tucson. He reports a continuous good feeling on the Gila with reference to mining and general prosperity, and that within ten months the population of the county has increased by one-fourth and that every day adds to it. The house of Jos. Collingwood & Co. is doing a very large business—in fact it ranks among the very largest and strongest houses in Arizona.

A FINE rosewood guitar, inlaid with pearls, patent head—cost the party who purchased it \$40; price \$13, at Uncle Harri's, 702 Kearny street, four doors from the City Hall, San Francisco. Send for it—a great bargain.

E. LEWENSTEIN received a lot of groceries and dry goods early this week, and in a few days, expects to receive per Lord & Williams' train, a very large addition embracing all kinds of merchandise.

No more horseback mails. Henceforth, daily stages will run between Tucson and Yuma, and eastward a buckboard will take the place of the horse and the stages run as usual each alternate day.

Just before his departure Col. Toole left orders to put a floor in the United States Depository and the work is now being done.

GEORGE FIELD'S train arrived on the 22d with freight to-wit: For Lowell 582 pounds; Thomas 18; Bowie 250; Grant 23,702. All consigned to Tully, Ochoa & Co.

SPECIAL attention paid to the repairing and adjusting of Fine Watches at Warren's, opposite the Palace Hotel.

It is now understood that Hon. H. S. Stevens will not return before the next session of Congress.

ATTENTION SMOKERS.—If you want a fine imported Havana cigar, go to Mansfield's News Depot.

BRAZILIAN Pebble Spectacles at Warren's, opposite the Palace Hotel.

RUSSIAN and Havana cigars at J. S. Mansfield's News Depot.

Mining Items.

Mr. Warner Buck, who is extensively engaged in mining operations in Pinal and Pima counties, has been in town during the week, and will shortly leave on a tour to his mines south and east of Tucson. He reports as follows about mining matters in Pinal county:

During his six months absence from Tucson, Mr. Buck has visited Florence, Phenix and the Globe district and the mines along the Salt river. He visited the King several times and at each visit found it presenting better and richer prospects. The surrounding mine are also showing fine prospects. Upon his last visit to the Athens, they had been drifting from a shaft and had struck a body of very rich ore. Mr. Buck picked up a piece of rock from a pile of what was considered worthless ore at this mine, and had it assayed; the return was \$346.49 in bullion. The Athens company are not working the mine at present, but there is no doubt that a few thousand dollars spent on this claim would develop a very rich one. Mr. Buck visited the new discovery called the Chief lode, situated about fifteen miles above Florence and some ten miles back from the Gila; he found it containing a vast body of paying ore. Also visited the Northern Belle and Eureka; he made a thorough examination of the latter and found it wonderfully rich and large bodies of ore distributed all over the claim. In the Globe district, two mills are running; on Mr. McMillan's rich claim, is turning out \$800 bullion a day; the other mill is a custom mill near Globe City and is very successful. Mr. Van Arsdale's copper furnace is running on copper ore and is turning out some of the finest bullion ever seen and which is said to contain a large per centage of gold. Kennedy's furnace is running successfully on silver ore. Prof. Gartner has just taken a furnace to run on silver ore. Besides these there are two other furnaces reported on the way to work on silver ore. The Richmond, McMorris, McMillan, Champion and Mexican claims in the Globe, are now considered as permanently valuable, besides a number of others with fine prospects. The Mexican is thought by good judges to be one of the best. There are two shafts on it about forty-five feet deep and taking in some two hundred feet of the vein. Average assays made from the ore body between these shafts establish the fact that this portion of the mine alone contains one million dollars worth of ore; and the balance of the mine is fully equal to the portion between shafts. The McMorris claim is held at \$200,000, and it is supposed that a sale is about negotiated. The wagon road from Florence to Globe City by the King, a distance of eighty miles, is completed and in fine order for any description of vehicle. A tri-weekly mail passes over it. There is a general impression that the suspense of the last four months in this locality is over, and that a brilliant mining future is now assured.

ITEMS from the Sentinel of May 19: It is reported that W. W. Standifer, United States Marshal, has resigned. J. H. Onstot and J. B. Hildebeck left on Monday for the Silver King mine, where they will set up the new machinery lately forwarded. Col. A. H. Wands of the New York Herald staff is passing a few days with us while deciding upon his itinerary for the Territory. Col. Kearsling has kindly furnished for the Sentinel the following data in regard to the mining claims in the vicinity of the Silver King: West Union, silver ledge, per ton, assays \$450. Frank Broerman, Olden-Bell ledge, new discovery, \$400. James Rogers, Big Chief ledge from \$200 to thousands. James Rogers, Sky Blue ledge, on to \$200. Phelps & McCollens, Rustler ledge on Miner all creek, average \$700. East Union ledge, \$450. Josephine ledge, \$1933. Fernandez ledge, \$1000. Athens ledge, from \$300 to over \$1000. Whitlow's Eureka ledge, \$398.61. Extension on Morning Star, Globe district, \$452.92. F. Broerman's World Beater ledge, \$566.49.

The Western Union telegraph company has reduced its rates, as we expected, to the same as the Atlantic & Pacific, as published in THE CITIZEN last week, viz: From Prescott, Camp Verde, Wickenburg, Phenix, Florence, Tucson, and all points on U. S. Military line, ten words to Los Angeles, \$1.00; to San Francisco, \$1.50; to all principal eastern cities, \$2.50. For this reduction, the people of Arizona are indebted to the Atlantic and Pacific company, and it is given out by The Sentinel that the latter company will soon extend its line into the interior of Arizona.

New York, May 16.—The Indian Commissioners awarded the principal contract for beef, being 20,000,000 pounds, to Joseph Parker, at \$5.10 per hundred. The contract for flour, about 2,000,000 pounds, was given at \$3.90 to \$6.73, freights included. John Dobson got the contract for 200,000 blankets, \$2.80 to \$7.20. Claflin & Co. got the principal award for cotton. Nickerson & Robbins, medicines. Clothing was given to city firms. Thurber Bros., groceries. Crossman & Co., hardware.

Ten citizens of Pueblo Viejo have applied in regular form to Adjutant-General Hughes, for the land from the Territory, with which to arm a company of militia. By and by the people will be in a condition to make immediate and effective war upon any bands of hostile Apaches that may be prowling around.

Mr. Jos. COLLINGWOOD says THE CITIZEN truly represents Pinal county in the Prescott census fraud and the results of it. Pinal has no ambition to beat any county except by fair means, and in that way we would congratulate any county on winning the ascendancy.

HAVE news from San Carlos up to 234. Indians all quiet. Gen. Vandev, U. S. Indian Inspector, found the administration there entirely satisfactory. The Hot Springs Indians are contented with their new home.

HUNT, DOUGLAS & STEWART
